When to use the Early Help Assessment

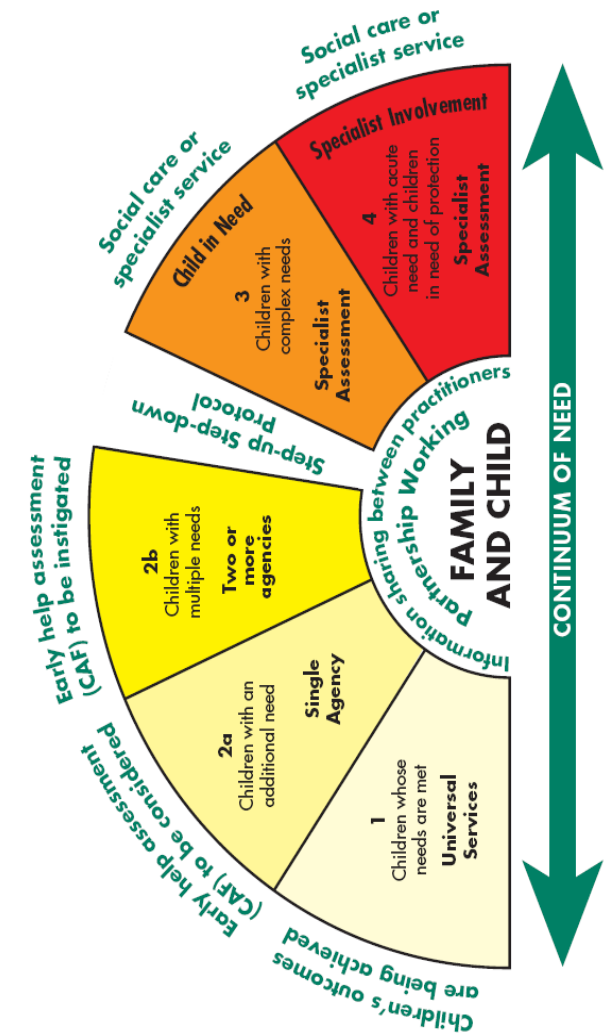

If...you believe a child needs some additional help and support it is important that you and the family you are supporting complete an Early Help Assessment. Please, use the Continuum of need to guide you through the process.

Level 2b (children with multiple needs - two or more agencies)

Level 2a (children with an additional need - single agency). This could be used for Single Agency to start collating data and evidencing child and families' needs. If you would like to use the system to record these cases please, contact our Early Help Advisor on: 01934 426329 or send an email to: EarlyHelp.AssessmentFeedback@n-somerset.gov.uk to discuss further. This is not to be recorded as an Early Help case.

If... You have any concerns about a child being potentially at risk of **significant harm** must be escalated to the social care Referral and Assessment team (R and A) via the Single Point of Access (SPA) on 01275 888808.
